\$33,816,507.96**NAICS**  
488310**Federal Product/Service Code**  
J019**Background:**

The original Contract N00033-08-C-1016 was transferred from Military Sealift Command (MSC) to Fleet Logistics Center Jacksonville (FLCJ) for administration in 2011 after it was determined that the services were not a part of the MSC mission. FLCJ began working with Commander Navy Region Southeast (CNRSE) in April 2013 on the follow-on requirement. The initial delay in getting a completed package from CNRSE was due to changes in some of the requirements and the uncertainty of the U.S. Naval Base, Guantanamo Bay, Cuba's (GTMO) future mission. This delayed finalization of the performance work statement for the new contract. In November 2013 it was determined that there would not be enough time to award a follow-on requirement. At that time FLCJ did not have a complete package and all other CNRSE Port Operations contracts had been transferred to Southeast Regional Maintenance Center (SERMC), at the request of the customer.

On 18 February 2014, SERMC agreed to process the GTMO follow-on contract at the request from CNRSE. FLCJ processed two bridge contracts N68836-14-C-0013 (nine months) and N68836-15-C-0001 (five months) to allow SERMC enough time to award the follow-on contract. The requirement was solicited and advertised via NECO and FEDBIZOPS as full and open competition. Award of the follow-on Contract N40027-15-C-0008 was made by SERMC on 16 March 2015, but subsequently terminated due to a Government Accountability Office (GAO) protest by an interested party. GAO dismissed the protest on 3 April 2015 based on the Government's proposed corrective action to re-compete the requirement. FLCJ issued Bridge Contract N68836-15-P-0627 to continue services without disruption. The Memorandum of Agreement (MOA) between CNRSE and SERMC was cancelled and the CNRSE Port Operations mission was returned to FLCJ. The FLCJ will solicit for the GTMO Port Operations support follow-on requirement.

**Need:**

Commander, Navy Region Southeast has a recurrent need to provide Port Operations Support Services for Naval Station Guantanamo Bay, Cuba. The current Bridge Contract N68836-15-P-0627 last option period expires on 31 May 2016. The Government intends to extend services for an additional four (4) months in accordance with FAR 52.217-8, extending services from 1 June 2016 through 30 September 2016. This option extension will allow FLCJ sufficient time to solicit the procurement, award a follow-on contract and have a 30 day transition period from 1-30 September 2016 with full performance commencing 1 October 2016. It is imperative that support continues without interruptions as the lack of support or discontinuance of services would have a significant impact resulting in harm and possible injury to the Government, at a cost that cannot be accurately estimated.

**Approach:** Market Research Team members were:

Elaine Florence, FLC Jacksonville, Contract Specialist  
Robert Novotny, CNRSE Port Operations  
Kenneth Rowe, COR GTMO Port Operations

**Market Research techniques utilized:**

- ☒ Contacting knowledgeable individuals in Government and industry regarding market capabilities to meet requirements.
- ☐ Reviewing the results of recent market research undertaken to meet similar or identical requirements (Date of prior market research \_\_\_\_\_).
- ☐ Publishing formal requests for information in appropriate technical or scientific journals or business publications.
- ☐ Querying Government databases that provide information relevant to agency acquisitions.
- ☐ Participating in interactive, on-line communication among industry, acquisition personnel, and customers.
- ☒ Obtaining source lists of similar items from other contracting activities or agencies, trade associations or other sources.
- ☐ Reviewing catalogs and other generally available product literature published by manufacturers, distributors, and dealers or available on-line.
- ☐ Conducting interchange meetings or holding pre-solicitation conferences to involve potential offerors early in the acquisition process.
- ☐ Posting source sought to the NECO website.

**Number of vendors interested in this requirement:**

An Industry Site Visit was held at U.S. Naval Base, Guantanamo Bay, Cuba from 11-15 December 2015. The following six (6) companies attended.

Munilla Construction Management, (MCM) LLC, Large Business  
Seaward Services, Incorporated, Large Business  
Metson Marine Services, Incorporated, Small Business  
SoBran, Incorporated, Large Business.  
Crowley Maritime Corporation, Large Business  
NBK Maintenance, LLC, (Teaming with Crowley Maritime Corporation)

**Summary of research:**

Market Research was conducted to ascertain if the requirement meets the FAR definition of a Commercial Service. In accordance with FAR Part 10, a determination has been made that the required services are of a type offered and sold competitively in substantial quantities in the commercial marketplace based on established catalog or market prices for specific tasks performed under standard commercial terms and conditions. Accordingly, this procurement meets the commercial item definition of FAR 2.101 for commercial services.

**A. Industry sources contacted and how contacted -phone, Internet, etc.; information obtained-requirements of any laws and regulations unique to the item being acquired; availability of items that contain recovered materials and items that are energy efficient; distribution and support capabilities of potential suppliers, including alternative arrangements and cost estimates; Size and status of potential sources:**

Three large businesses (MCM, Seaward Services and SoBran, Inc.) and one small business (Metson Marine Services) submitted proposals in response to solicitation RFQ N40027-15-R-0001 and contract award N40027-15-C-0008 which was protested. All four companies have expressed interest in the follow-on contract.

**B. Standard business provisions and conditions, e.g. terms, payment, freight & delivery, warranties, etc.:**

The base period of performance for this acquisition is anticipated to begin on 1 October 2016 and continue through 30 September 2017. The proposed contract will contain four (4) one-year option periods. An additional option period of up to six months, as authorized by FAR 52.217-8, Option to Extend Services will also be included for a total performance period of sixty-six (66) months. The periods of performance are as follows:

Base	01 October 2016 – 30 September 2017
Option I	01 October 2017 – 30 September 2018
Option II	01 October 2018 – 30 September 2019
Option III	01 October 2019 – 30 September 2020
Option IV	01 October 2020 – 30 September 2021
FAR 52.217-8*	01 October 2021 – 31 March 2022

**C. Range of prices encountered and rationale for variance:**

The range of prices encountered will vary due to housing, utilities, consumable items, freight, G&A, profit, overhead and wages. The total estimate for this acquisition base and all options, including FAR 52.217-8, Option to Extend Services is \$33,816,507.96. This is based on the Independent Government estimate (IGE) developed by the COR, utilizing historical pricing data and personnel assigned. Any performance in GTMO will require a substantial start-up cost because of the remote location and the management of Local Nationals.

Base Year	\$6,034,826.92
Option I	\$5,909,458.96
Option II	\$6,067,856.68
Option III	\$6,228,189.39
Option IV	\$6,384,117.34
<b>Total:</b>	<b>\$30,624,449.29</b>
<b>Extension (6 months)</b>	<b>\$ 3,192,058.67</b>
<b>Total:</b>	<b>\$33,816,507.96</b>

**D. Description of how data was analyzed:**

Based on a review of the previous number of Offerors that submitted proposals and the potential sources that attended the site visit, the Contract Specialist believes there are sufficient business concerns in the commercial marketplace demonstrating their capability of performing Port Operation Support Services in GTMO Bay Cuba.

**Small Business Specialist Comments: Is this a bundled requirement? Can it be set-aside for a small business program? Explain why/why not. List specific sources and databases you used for your conclusions.**

This is not a bundled requirement. The requirement cannot be set-aside as only one potential Small Business Source was identified as having the capability to perform this type of services. Market research was conducted via the Dynamic Small Business Website which identified one Small Business Concern (Metson Marine Services) under NAICS 488310 that met the \$38.5 Million size standard.

The approved Small Business Coordination Record (DD2579) to solicit requirement as full and open competition is included in the contract file.

**Recommendations / Conclusions:**

The requirement for Port Operations Support Services is determined to be a commercial service. Based on market research, site visit attendees and the number of Offerors that submitted proposals in response to the previous solicitation for the GTMO Port Operations requirement, the Contract Specialist has determined that there is no reasonable expectation that offers will be obtained from two or more small business firms in terms of market prices, quality and delivery. To receive adequate competition throughout the commercial marketplace, the Contract Specialist believes that the most advantageous acquisition approach is soliciting the requirement as full and open competition. A Request for Proposal (RFP) will be posted on the Federal Business Opportunities (FEDBIZOPPS) website via Navy Electronic Commerce Online (NECO).

- (c) If the offeror deletes or modifies paragraph (a)(2) of this provision, the offeror must furnish with its offer a signed statement setting forth in detail the circumstances of the disclosure.

**(End of Provision)****FAR 52.203-11 Certification and Disclosure Regarding Payments to Influence Certain Federal Transactions (Sep 2007)**

- (a) Definitions. As used in this provision "Lobbying contact" has the meaning provided at 2 U.S.C. 1602(8). The terms "agency," "influencing or attempting to influence," "officer or employee of an agency," "person," "reasonable compensation," and "regularly employed" are defined in the FAR clause of this solicitation entitled "Limitation on Payments to Influence Certain Federal Transactions" (52.203-12).
- (b) Prohibition. The prohibition and exceptions contained in the FAR clause of this solicitation entitled "Limitation on Payments to Influence Certain Federal Transactions" (52.203-12) are hereby incorporated by reference in this provision.
- (c) Certification. The offeror, by signing its offer, hereby certifies to the best of its knowledge and belief that no Federal appropriated funds have been paid or will be paid to any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress on its behalf in connection with the awarding of this contract.
- (d) Disclosure. If any registrants under the Lobbying Disclosure Act of 1995 have made a lobbying contact on behalf of the offeror with respect to this contract, the offeror shall complete and submit, with its offer, OMB Standard Form LLL, Disclosure of Lobbying Activities, to provide the name of the registrants. The offeror need not report regularly employed officers or employees of the offeror to whom payments of reasonable compensation were made.
- (e) Penalty. Submission of this certification and disclosure is a prerequisite for making or entering into this contract imposed by 31 U.S.C. 1352. Any person who makes an expenditure prohibited under this provision or who fails to file or amend the disclosure required to be filed or amended by this provision, shall be subject to a civil penalty of not less than \$10,000, and not more than \$100,000, for each such failure.
